

From: Matron (Germany Bursary)

To: Daniel Freude

Dear Sir,

REPORT ON CHARITY WORK FOR GERMANY BURSARY STUDENTS

I am Lister Melvis Munthali, a teacher at Kaseye Girls' Secondary School. I belong to the Science Department and I teach Chemistry and Biology. I joined Kaseye in the month of January, 2022. We once interacted on phone, through Itike Mkandawire. Attached is my picture.

I would like to inform you about what Germany beneficiary students did on 1st May, 2024.

The students who are the beneficiaries of the Germany Bursary, visited the Kaseye Community Hospital on Wednesday of 1st May, 2024, and did some cleaning exercises.

Attached are the pictures of the students picking litter at the hospital.

S

From the handovers, we made with Madam Itike Mkandawire, it shows that the activities that students have been doing are: charity works at the hospital, visiting the elders, visiting the prison, cleaning the school surroundings and helping the needy students in the campus. So, if there are other activities that you feel like students can be doing apart from the ones that I have mentioned, you can share with us.

Yours sincerely

L.M.M.

Lister Melvis Munthali (+265 88 024 2696)
